

23rd March 2020

To whom it may concern

Packaging Reuse are a service provider to the chemical industry. We service the full range of the chemical industry: agrichemicals, pharmaceuticals, water treatment, detergent and sanitisers, paper, stabilisers, oils and many more.

We are a key supply chain business covered in the governments guidance of key workers for COVID 19 <https://www.gov.uk/government/publications/coronavirus-covid-19-maintaining-educational-provision/guidance-for-schools-colleges-and-local-authorities-on-maintaining-educational-provision>

We have reorganised our working practices and shift patterns and will continue to do so, according to the latest updates we receive to ensure we continue our key role and minimising exposure to or potential transmission of the coronavirus.

There is also further information on our website www.prdservices.co.uk or you can contact one of our Directors : Mark Hutchinson 07951947251 or Amanda Hutchinson 07547 505258.

We are also receiving continued updates and guidance from the Chemical Industries Association and the Federation of Small Businesses.

Many thanks

Mark Hutchinson
